GHS Hazard Pictograms

Globally Harmonized System of Classification and Labeling

#	Pictogram	Symbol	Hazard Types
1	**Flame**		Flammable gases, liquids, solids, aerosols; self-reactive; pyrophoric; self-heating; organic peroxides
2	**Flame Over Circle**		Oxidizers - may cause or intensify fire
3	**Exploding Bomb**		Explosives, self-reactive, organic peroxides
4	**Corrosion**		Skin corrosion/burns, eye damage, corrosive to metals
5	**Gas Cylinder**		Gases under pressure - compressed, liquefied, dissolved
6	**Skull & Crossbones**		Acute toxicity (fatal or toxic) via oral, dermal or inhalation
7	**Health Hazard**		Carcinogen, mutagen, reproductive toxicity, respiratory sensitizer, organ toxicity, aspiration hazard
8	**Exclamation Mark**		Irritant, skin sensitizer, narcotic effects, respiratory tract irritation, acute toxicity (harmful)
9	**Environment**		Aquatic toxicity - hazardous to the aquatic environment

Signal Words

DANGER - More severe hazards

WARNING - Less severe hazards

Key SDS Sections

- **Sec 2:** Hazard identification
- **Sec 4:** First-aid measures
- **Sec 5:** Fire-fighting measures
- **Sec 8:** Exposure controls/PPE
